RE: Draft Majority Opinion of Roe v. Wade

Access to healthcare and protection of privacy are mandatory prerequisites for equity. At our core we have always cheered for the equitable treatment of humans. We are concerned by the draft majority opinion of Roe v. Wade, and while it has not been signed the potential impact is significant. Certainly, on persons with uteruses, as well as many other groups of individuals across gender, race, and socio-economic lines.

PCA stands with, amplifies, and supports all those who have already been impacted by the news, and those who may be impacted should it be signed.
